

Temporary Traffic & Event Management Specialists

Client:

Project:

**FARRINGTON
STATION &
TUNNELS**
Crossrail C435

Contract Value: Approx. £1,000,000.00

Scope of Works

The Farringdon Crossrail station comprises two platform tunnels, each the length of two football pitches, linking two new ticket halls in the East and West.

RTS have provided various Traffic Management scenarios over the course of the contract including the implementation of one way systems, multi-phase traffic and pedestrian systems & heavy duty barriers.

Once the station is up and running it is expected to be one of the busiest stations in London servicing up to 150,000 passengers a day and 140 trains per hour.

RTS have staff situated on site 24 hours a day / 365 days a year to assist with pedestrians, maintain site and make any alterations to the existing Traffic Management layout.

As a company we are proud to be part of such a prestigious and ambitious project and are looking forward to working with Team BFK on further sites.

The above project has recently been completed.
