

Technical Drawer

Base salary of £15-20kpa dependent on experience

Location - RTS Head Office, Scunthorpe

Monday to Friday 8:30am - 5:00pm

As one of the largest national providers of Traffic Management services within the UK, RTS have over 100 employees delivering a quality service 24/7. RTS cover all aspects of Traffic Management including consultancy, planning, drawing and delivery, via a national network of service centres. Now, due to continued growth, we are expanding our teams with new roles to support our customers.

Main Duties

- Produce CAD drawings reflecting Traffic Management needs on site
- Invoice all chargeable drawings as per agreement with the customer – within 24 hours unless by application
- Deal with drawing queries and escalate if necessary
- Communicate with your Planning Supervisor regularly, keeping them up to date with workload and any issues arising
- Maintain the drawing log on the company management system
- Add value to the team culture

You will be able to demonstrate:

- Basic Computing Skills and experience in Microsoft Office
- At least 1 years Customer Service experience in an office environment
- An ability to maintain a good level of customer service with the clients by communicating regularly

Previous experience of CAD drawing, especially to Chapter 8 standard, would be of benefit, but not essential.

Any offer of employment will be based on experience.
